- (1) Students will be charged per credit and total tuition for a given term is determined by multiplying the number of credit hours for which the student is registered and attends within the term by the tuition per term credit rate above. Total Program Cost does not reflect any subsequent tuition reductions for any transfer credit approved by Lamson.
- (2) Note: Students enrolling in this program must also pass the Test of Essential Academic Skills (TEAS) as well as a criminal background check and fingerprinting/drug screening as explained in the admissions section of this catalog. Fees for these procedures will be paid directly by the student to the testing entities. See Admissions Advisor for more details.

Campus Technology Requirements for All Programs

With this addendum, the following sentence is deleted from the Campus Technology Requirements for All Programs section of the catalog:

Where applicable, any device issued by the school will meet these requirements.

Entrance Exam Testing Information

This update adds a second entrance exam to the school’s admissions testing policy which the school may elect to have students take instead of the Wonderlic exam.

All applicants must take and pass either the Wonderlic Scholastic Level Exam (SLE) or the EduReady Admissions Assessment as an entrance exam. Lamson, at its sole election and discretion, will assign each applicant one of these two exams. Minimum acceptable scores and other details are provided below:

Wonderlic Scholastic Level Exam (SLE): The minimum acceptable score is 18 for applicants to the Cloud Computing & Cybersecurity Associate program, 16 for the Vocational Nursing program, and is 12 for applicants to all other programs. If a minimum score is not achieved, two re-tests may be given using an alternate test form.

EduReady Admissions Assessment: The minimum acceptable score is 102 for applicants to the Cloud Computing & Cybersecurity Associate program, 94 for the Vocational Nursing program, and is 75 for applicants to all other programs. If a minimum score is not achieved, two re-tests may be given using an alternate test form.

This entrance exam requirement is waived for students possessing an associate degree or higher from an accredited U.S. school. Degrees from non-U.S. schools must accompanied by an evaluation from a third-party, professional document evaluation service that clearly identifies the document’s equivalence to a U.S. credential and approved by the campus director.

Note: The President has the discretion to waive minimum score requirements for any entrance exam as deemed appropriate in his judgment. In such cases the President may require additional information from the student which may include but is not limited to the form of an interview, written statement, and/or other means of explaining the student’s extenuating circumstances and/or demonstrating their aptitude for the program.
